This order is used for minimizing of losses if the security price has started to move in an unprofitable direction. If the price of the instrument reaches this level, the position is fully closed automatically. Such orders are always associated with an open position or a pending order. The order can be placed only together with a market or a pending order. The Take Profit order is intended for gaining the profit when the security price has reached a certain level. Execution of this order leads to a complete closure of the position. It is always connected to an open position or a pending order. The order can be placed only together with a market or a pending order. This order condition for long positions is checked using the Bid price (the order is always set above the current Bid price), and the Ask price is used for short positions (the order is always set below the current Ask price).

8. Risk warning – Acknowledgement of Risk

- 8.1 Foreign Exchange (Forex), Contracts for Difference (CFDs) on spot Forex, spot precious metals, futures, indices, shares, virtual currencies, options, futures, swaps, forward rate agreements and many other commodities and derivatives available for trading are highly leveraged Financial Instruments and involve a high level of risk. It is possible that the Client loses all his/her invested Capital. Therefore these products may not be suitable for all types of investors and the Client should ensure that he/she has understood the risk involved and if necessary the Client should seek independent expert advice.
- 8.2 Further to the above, trading in Bonds, Shares and Equities, it is possible that the Client loses all his/her invested Capital. Therefore these products may not be suitable for all types of investors and the Client should ensure that he/she has understood the risk involved and if necessary the Client should seek independent expert advice.
- 8.3 The Company will assess whether a proposed Service is appropriate for the Client based solely on information supplied by the Client, including financial information, previous experience in investment products, risk tolerance and investment objectives. It is Client’s responsibility to inform the Company in writing of any information which might reasonably indicate that this assessment should be changed. Furthermore it is Client’s responsibility to ensure that such information is kept up to date.
- 8.4 Do not enter into transactions or invest funds that are above your financial abilities. Also, certain financial products are not suitable for people without the relevant knowledge and / or experience. This is why we provide you with different options in terms of products and services, depending on your abilities and knowledge. If you would still wish to open an account, we will ask you to acknowledge that you are aware of the financial risks.
- 8.5 General views expressed to the Client (whether orally or in writing) on economic climate, markets, investment strategies or investments, trading suggestions, research or other such information are not to be viewed as advice or Company recommendations and will not give rise to any advisory relationship. Any information which the Client may receive from the Company will be given in good faith merely for Client’s information and are incidental to the provision of other services by the Company to the Client but the Company does not warrant that it is accurate or complete, or as to its tax consequences, and the Company does not accept any responsibility for any loss, liability or cost which the Client might suffer or incur in relying on such information, whether caused by Company’s negligence or through any other cause. Each decision by the client to enter into a transaction with any Financial Instrument offered by the Company is an independent decision by the Client. The Company is not acting as an advisor to, or serving as a fiduciary of, the Client, and the Company specifically disclaims any such duties.
- 8.6 When the Client makes a decision to deal or undertake in any Financial Instrument, Service or Transaction, the Client should consider the risks inherent in such Financial Instrument, Service or Transaction, and in any strategies related thereto. The Client assessment of risk should

include a consideration without limitation of any of the risks such as credit risk, market risk, liquidity risk, interest rate risk, foreign exchange risk, business, operational and insolvency risk, the risks of “over the counter” (as opposed to on-exchange) trading, in terms of issues such as the clearing house “guarantee”, transparency of prices and ability to close out positions, contingent liability risk and regulatory and legal risk. The Client should also ensure that he/she has read and understood Company’s Risk Disclosure Policy, any accompanying Financial Instrument documentation, for example terms sheets, offering memoranda or prospectuses, and the Financial Instrument’s Contract Specifications for any further relevant risk disclosures.

8.7 The Client unreservedly acknowledge and accepts that, regardless of any information which may be offered by the Company, the value of any investment in Financial Instruments may fluctuate downwards or upwards and it is even probable that the investment may become of no value. The Client also unreservedly acknowledges and accepts that the price and value of Financial Instruments depends on fluctuations in the financial markets which are outside the Company’s control.

8.8 The Client declares and warrants that he/she has read understood and accepts the following:

- i. Information of the previous performance of a Financial Instrument does not guarantee its current and/or future performance. The use of historical data does not constitute a binding or safe forecast as to the corresponding future performance of the Financial Instruments to which the said information refers.
- ii. Some Financial Instruments may not become immediately liquid as a result e.g. of reduced demand and the Client may not be in a position to sell them or easily obtain information on the value of these Financial Instruments or the extent of the associated risks.
- iii. When a Financial Instrument is traded in a currency other than the currency of the Client’s country of residence, any changes in the exchange rates may have a negative effect on its value, price and performance.
- iv. A Financial Instrument on foreign markets may entail risks different to the usual risks of the markets in the Client’s country of residence. In some cases, these risks may be greater. The prospect of profit or loss from transactions on foreign markets is also affected by exchange rate fluctuations.
- v. A derivative financial instrument (i.e. option, future, forward, swap, contract for difference) may be a non delivery spot transaction giving an opportunity to make profit or loss on changes in currency rates, commodity or indices.
- vi. The value of the derivative financial instrument may be directly affected by the price of the security or any other underlying asset which is the object of the acquisition.
- vii. The Client must not purchase a derivative financial instrument unless he is willing to undertake the risks of losing entirely all the money which he has invested and also any additional commissions and other expenses incurred.
- viii. Warrant is the right to acquire shares or other securities with or without the deposit of a certain amount to the issuer. If the Client does not exercise his right to acquire shares or other securities during the exercise period of the Warrants, then upon expiry the Warrants lapse and have no value whatsoever;
- ix. The value of the Warrants is directly affected by the price of the share or security which may be acquired when the warrant is exercised. For example, a minor change in the price of the share or security which shall be acquired may result in a major change in the price of the Warrant. Consequently, the value of the Warrant is highly volatile;

- x. The Client should not purchase Warrants unless and until he is prepared to lose all funds invested and any commissions and other expenses incurred by him.
- xi. Transactions in derivative Financial Instruments exhibit a lot of different risk profiles depending on the type of derivative Financial Instrument and/or the transaction. Some involve limited risk to sustain loss. For example, the risk of loss from the purchase of an option which confers a right to buy a particular asset at a particular price is limited to the total amount which the Client has paid to acquire that right. On the contrary, other derivative Financial Instruments involve unlimited risk to sustain loss. For example, if the Client sells an option which confers the right to buy a particular asset at a particular price, the profit is limited to the amount the Client receives for conferring that right but because the Client has to deliver that asset to the counterparty on the expiry of the contract, the Client's potential loss is unlimited;
- xii. Apart from the structure of the derivative Financial Instrument itself, there are risks which may relate to the fact that contracts in derivative Financial Instruments are leveraged transactions. Due to the leverage offered by derivative Financial Instruments to the Client, that is only a proportion of their total market exposure needs to be paid to open and maintain a position, the market exposure can be several times the cash placed on deposit as "margin" for the trade or paid for acquiring the derivative Financial Instrument in the form of a premium;
- xiii. Many professional clients use derivative Financial Instruments as part of their overall strategy to manage various risks. Sophisticated risk – management techniques are used to assess the overall risk of their investment portfolios that may include options and futures. The assessment of these risks requires the use of models which are only approximations and/or may be inaccurate. Therefore, the inaccuracies in the models may entail risks for the investors;
- xiv. The Client may be subject to operational and other risks in the event that he does not have in place appropriate internal procedures and controls to monitor the various risks and requirements in relation to transactions in derivative Financial Instruments;
- xv. If a derivative Financial Instrument is not traded or arranged in any stock exchange, the Client runs the risk of his counter-party not performing his obligations under the contract (credit risk);
- xvi. The transactions in derivative Financial Instruments may entail liquidity risks i.e. the risk that the Client cannot easily sell the derivative Financial Instrument.
- xvii. In the case of CFDs with underlying asset a virtual currency, there might be sudden changes in prices of certain instruments which may result in significant loss over a short period of time. This can happen during economic event or market announcements or geopolitical events, news, or even due to adverse media or fake news. Gaps can occur when markets open or close or even during normal trading hours. If the market is closed when these factors occur, the opening price of the underlying asset can be substantially different from the closing price, giving you no opportunity to close your trade in-between. Pricing gaps can result in significant losses. Therefore, CFDs on virtual currencies may be subject to large price fluctuations and in some instances, due to the early stages of their lifecycle, they may lose entire value.
- xviii. any losses may exceed the cash you have deposited with us;
- xix. profits or losses can be incurred very quickly and it is your responsibility to monitor your Account at all times;
- xx. the price of Instruments are determined by fluctuations in the market outside our control;
- xxi. you may be required to deposit additional funds at short notice and failure to do so

- may result in your open trades being closed and working orders cancelled without notice;
- xxii. in certain circumstances, it may be difficult to close your open trades immediately, the value of your trades could fall and you will be liable for the full amount of any losses;
 - xxiii. currency exchange fluctuations may impact your profits and losses;
 - xxiv. an order to limit the loss on a trade is not guaranteed to limit your loss on that trade to a specific amount;
 - xxv. your rights to money held in our segregated client bank account, where applicable, may be affected by (i) the insolvency of the relevant bank, or (ii) the insolvency of a clearing house where we have transferred money to them for the purposes of margin etc.
 - xxvi. corporate action type events may impact your trade and it is your responsibility to determine whether your trade is likely to be subject to such action and what its effect may be;
 - xxvii. Digital Currency Fork events are outside of our control and may result in a material change in the value of your trades.

8.9 The nature and extent of the risks mentioned above vary from country to country and depend on the Financial Instrument on which the investment shall be effected. In general, the risk factor of an investment shall be affected inter alia by:

- (a) The type of the intended investment;
- (b) The needs and profile of the investor;
- (c) The manner in which the specific investment is effected or the specific Financial Instrument is offered or negotiated or sold;
- (d) The market in which the Financial Instruments are negotiated and whether such market is regulated or not;
- (e) The place of registration or place of business, the capitalization and the main business of the issuer;
- (f) The risk of insolvency of the issuer;
- (g) The complexity of the intended transaction;
- (h) Whether the transaction is connected with margin payment and/or the granting of credit and/or deposit of collateral and whether it is a leveraged transaction;
- (i) The settlement and clearing system applicable to the relevant Market;
- (j) The risk of political instability in the country of the relevant Market or the country of the issuer;
- (k) The counter-party risk.

8.10 Since virtual currencies are traded on various exchanges worldwide (non-centralized), and since we derive our pricing from certain exchanges and/or liquidity providers, our pricing might be significantly different than prices from other exchanges and/or liquidity providers. Accordingly price formation and price movements of the virtual currencies depend solely on the internal rules of the particular digital exchange/liquidity providers, which may be subject to change at any point of time and without notice. This often leads to very high intra-day volatility in the prices of the virtual currencies which may be substantially higher compared to financial instruments. You should understand the above, and maintain your account balance accordingly, knowing that our prices can be different from prices observed elsewhere.

8.11 In the case of CFDs with underlying assets virtual currencies, due to leverage and volatility,

your positions and account status can change rapidly. It is your responsibility that at all times you monitor your account, margin level and profit/loss, and act as needed to protect your equity.

- 8.12 The Client acknowledges that the risk reducing orders or strategies such as “Stop Loss” or “Stop limits” that are intended to limit losses to certain amounts may not always be executed because of unusual market conditions or technical limitations. Strategies using a combination of positions may be just as risky as or even riskier than simple “Long” or “Short” positions.
- 8.13 Under abnormal market conditions, CFDs may fluctuate rapidly to reflect unforeseeable events that cannot be controlled either by the Company or the Client. As a result, the Company may be unable to execute the Client’s instructions at the declared price and a “stop loss” instruction cannot guarantee to limit the latter’s loss. This may occur, for instance, at the following cases:
- i. During Market Opening;
 - ii. During news times;
 - iii. During volatile markets where prices may move significantly up or down and away from declared price; and or
 - iv. Where there is rapid price movement, if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted.
 - v. If there is insufficient liquidity for the execution of the specific volume at the declared price.
- 8.14 The Client unreservedly acknowledge and accept that he/she runs a great risk of incurring losses and damages as a result of the purchase and/or sale of any Financial Instrument and he/she accepts and declares that he/she is willing to undertake this risk.
- 8.15 The preceding paragraph does not constitute investment advice based on Client’s personal circumstances, nor is it a recommendation to enter into any of the Services or invest in any Financial Instrument. Where the Client is unclear as to the meaning of any of the above disclosures or warnings, he/she is strongly recommended to seek independent legal or financial advice.
- 8.16 The Client acknowledges and accepts that there may be other risks than those mentioned in the section 8 of this agreement. The Client should also acknowledge and accept that he/she has read and understood Company’s Risk Disclosure Policy which was provided to him/her during the account opening process and which is available on the Company’s website.
- 8.17 **Risk Disclaimer:** The information below refers to the risks associated with Over-the Counter Foreign Exchange, Commodities, Indices and Contracts for Difference transactions, that you must be aware of.
- 8.18 **High Risk Investment:** Before deciding to participate in such Over the Counter (OTC) transactions, you should carefully consider your investment objectives, level of experience and risk appetite. We are required to make an assessment whether it is appropriate for you, and to warn you if, on the basis of the information you provide to us, it is not appropriate. Most importantly, do not invest money you cannot afford to lose. There is considerable exposure to risk in OTC transactions including, but not limited to, leverage, creditworthiness,

limited regulatory protection and market volatility that may substantially affect the price, or liquidity of the relevant financial instrument.

- 8.19 **Slippage:** There are times when, due to an increase in volatility or volume, orders may be subject to slippage. Slippage most commonly occurs during fundamental news events or periods of limited liquidity. The volatility in the market may create conditions where orders are difficult to execute at the quoted price of the market order, and in such cases would be filled at the next price available for that order.
- 8.20 **Liquidity:** The Company will make reasonable efforts to offer fixed spreads. However, during very rare market conditions when liquidity is reduced, spreads may be widened and deal sizes may vary. In illiquid markets, you may find it difficult to enter or exit positions at your requested price, experience delays in execution, and receive a price at execution that may be significantly different from your requested rate.
- 8.21 **Gearing and Leverage:** Furthermore, OTC Derivatives trading involves the use of leverage or gearing which means that any market movement will have an evenly proportional effect on your deposited funds. This may work in your favour or against you. The possibility exists that you could sustain a total loss of initial margin funds and be required to deposit additional funds to maintain your position. If you fail to meet any margin requirement, your position may be liquidated and you will be responsible for any resulting losses. Because of the effect of gearing and therefore the speed at which profits or losses can be incurred you can manage exposure, by employing risk reducing strategies such as 'stop loss' or 'limit' orders.
- 8.22 **Internet Trading Risks:** There are risks associated with utilising an Internet-based trading system including, but not limited to, the failure of hardware, software, and internet connection. The Company is not responsible for communication failures or delays when trading via the Internet. The Company employs back-up systems and contingency plans to minimise the possibility of system failure.
- 8.23 **Market Opinions:** Any opinions, news, research, analyses, prices, or other information contained on Company's website are provided as general market commentary, and do not constitute investment advice. The Company is not liable for any loss or damage, including without limitation, any loss of profit, which may arise directly or indirectly from use of or reliance on such information. The Company has taken reasonable measures to ensure the accuracy of the information on the website. The content on Company's website is subject to change at any time without notice.
- 8.24 **Rollover costs:** Rollover is the simultaneous closing and opening of a position at a particular point during the day in order to avoid the settlement and delivery of the purchased currency. At the time at which positions are closed and reopened, a rollover fee is levied. Please manage positions accordingly around rollover and understand the implications of spreads widening in regard to execution with existing/open positions or new positions/orders.

- 9.12 The Client acknowledges and agrees that all market data and information in relation to trading, volumes and pricing for a financial market provided through Company's Electronic Systems may be proprietary information of the relevant Exchange or financial market or another person and any display, dissemination or other use of that information may be subject to restrictions imposed by the financial market or other person. - 9.13 The Company may make available to the Client the ability to enter into Transactions through Company's Electronic Systems. Any Content that the Company includes on Company's Electronic Systems in respect of a Transaction does not constitute an offer to the Client that the Company will enter into a Transaction on the terms set out. The Company may amend that Content at any time in Company's sole discretion, including, without limitation, after the Client has submitted to the Company a firm indication of interest or other instruction indicating that he/she wishes to proceed with a Transaction.

- 9.19 The Client agrees that shall be personally liable for all Orders given through and under his/her access codes and any such Orders received by the Company shall be deemed to have been received by the Client. Where a third person is assigned as an authorised representative to act on behalf of the Client, the Client shall be personally liable for all Orders given through and under access codes given by the Company to that representative.

- 9.20 When you open a transaction on the Trading Platform you are trading with CFDs, which means that you enter into a contract with us for the difference between the value of an Instrument as specified on the Trading Platform at the time of opening a Transaction, and the value of such Instrument at the time of closing the Transaction. You acknowledge and agree that you are not entitled to ownership of the underlying asset of such a contract, including, but not limited to, the actual Shares.
- 9.21 The Company reserves the right to reject any Orders transmitted to the Company through any means other than the Company's predetermined Electronic Systems.
- 9.22 The Client undertakes to notify the Company immediately if it comes to his/her attention that Client's Electronic Systems access codes are being used unauthorised. Unacceptable usage of the Company's Electronic Systems includes, without any limitations, unauthorized use of market data, voluntary granting of access to the terminal to unauthorized persons, execution of suspicious transactions within the meaning of the Applicable Regulation, etc.

9.29 If the client should use a third party software application to provide trading signals or advice or other trading assistance (an "Expert Advisor") or uses MetaTrader Hosting, a hosting environment allowing for real-time access to the Client's Company Account, the Company and its third party suppliers or licensors make no warranties or representations of any kind, whether expressed or implied for the service it is providing. - 10.6 The Company shall have the right to proceed to partial execution of orders or to the aggregation of the order of the Client with orders of other Clients of the Company within the framework of aggregated transactions under the Law. In the case of partial or total execution of aggregated orders, the distribution of the proceeds of the transaction among the Clients shall be effected on a proportional basis, unless otherwise agreed between the Company and the Client.
- 10.7 The Client shall be exclusively responsible for the persons employed for the transmission of the orders and shall be precluded from claiming against the Company any defect during the transmission of the order in relation to the person transmitting the order, even where the said person has acted fraudulently or with gross negligence. The Client shall be bound unto the Company for each and every order transmitted to the Company in his name through such person and any relevant claim by him shall be limited exclusively to a claim against the person

transmitting the orders.

- 10.8 The Client acknowledges and accepts the risk of mistakes and/or misinterpretations in the orders sent due to technical or mechanic failures in the electronic or telephone or facsimile and/or other systems, the risk of delay or other problems as well as the risk that the orders may be placed by unauthorized persons. The Client accepts that during the reception and transmission and/or execution of his order, the Company shall have no responsibility as to its content, the identity of the person placing the order or his power to manage the Client Accounts of the Client or to dispose of the underlying Financial Instruments or for any delay in the reception and transmission and/or execution of the order except only for fraud, wilful misconduct or negligence. The Client shall be obliged to indemnify and keep indemnified the Company and/or its directors and/or its employees and/or its representatives for any claim by third parties and/or damage, obligation, costs or expenses which the Company or any third party may incur or sustain as a result of the reception and transmission and/or execution of the orders.
- 10.9 The Company shall have no liability in respect of acts or omissions (unless due to negligence, wilful default or fraud by the Company) of natural or legal persons which may substitute the Company during the execution of the Client's order.
- 10.10 In case of an Order received by the Company by means other than through the Electronic Trading Platform, the Order will be transmitted by the Company to the Electronic Trading Platform and processed as if it was received by the Client through the Electronic Trading Platform.
- 10.11 The Client may send instructions for the types of orders defined in section 2 of this agreement under the definition of "Type of orders" provided that such orders can be executed in the relevant 'Execution venue'.
- 10.12 The Client acknowledges that trading hours (time and dates) of Financial Instruments depend on the trading sessions of each specific Financial Instrument. It should be noted that trading of certain Financial Instruments occurs during specific timeframes which can be found in the Company's website and/or platform or being notified via email about changes in specific Financial Instruments trading timeframes. The Client is responsible to regularly visit the Fees and specifications in the Company's website of such instruments for further details and/or changes, before trading.
- 10.13 Unless otherwise indicated or agreed upon, any prices shown on our Online Trading Facility are indicative at the time shown based on data that is subject to constant change. The execution price is that which is confirmed to you on the Settlement/Trade Confirmation issued (whether on screen or otherwise) after your Order is executed, although this price may in certain cases differ from the price appearing on the screen at the time the Order was placed. In the event that an erroneous price is used as the basis of any transaction, we reserve the right, at our sole discretion, to amend or revoke the details of the Transaction(s) and/or Contract(s) in question.
- 10.14 The client is sole responsible for any trades placed on the Company's Trading Platform. The clients should check symbol specifications before opening a trade and monitor the Trading Platform for up-to-date symbol specifications and not rely on past execution results statuses before placing any order through the Company's Trading platform.

- 10.15 In the absence of any other agreement between the Company and the Client, the Company will act on any instruction which it reasonably believes to have been given, or purporting to have been given by the Client or any person authorised on Client's behalf, without enquiring as to the genuineness, authority or identity of the person giving or purporting to give such instructions.
- 10.16 The Client must ensure that any instructions given to the Company is clear and intelligible. If the Client does not provide such instructions promptly, clearly and in an intelligible form, the Company may, at its absolute discretion, ask the Client to confirm the instruction in writing, in such form as the Company may request, before it acts on it, or take such other steps at Client's cost as the Company considers necessary or desirable for its own or Client protection, or take no action on Client's instructions. The Company is not obliged to accept instructions to enter into a Transaction unless it is required to do so by any Applicable Regulations. If the Company declines to enter into a Transaction, it is not obliged to give a reason.
- 10.17 The Client acknowledges and agrees that the Company shall be entitled to record all conversations/communications between the Client and the Company or any representative thereof and maintain such records at its discretion and without further notice (unless required to do so by applicable Regulation). Such record includes all incoming and outgoing phone calls with you without making a disclosure to you each and every time you speak with a representative of the Company. These calls may be recorded with or without an audible tone. Such records will be the Company's property and shall be accepted by the Client as evidence of his/her orders or instructions. The Company has the right to use recordings and/or transcripts thereof for any purpose which it deems desirable, including but not limited, for the purposes of monitoring and training its staff, monitoring compliance with you and the relevant regulatory and contractual obligations and resolving disputes. The Client can request to receive these records (if still available) from the Company.
- 10.18 The Company reserves the right, at its absolute discretion to confirm in any manner that it may determine the instruction and/or Orders and/or communications sent through the Trading Platform. By entering into this agreement the Client accepts the risk of misinterpretation and/or mistakes in the instructions and/or Orders through the Trading Platform, regardless of how they have been caused, including but without limitation, technical or mechanical reasons.
- 10.19 The Client has the right, at his own risk, to use a Power of Attorney to authorize a third person (representative) to act on behalf of the Client in all business relationships with the Company as defined in this Agreement provided that:
- a) the Client has informed the Company in writing in such a manner as the Company may at any time determine,
 - b) the authorized person has been approved by the Company
 - c) that both the Client and the authorized person have fulfilled such conditions, including the execution of such document, that the Company may at any time and at its discretion determine

Unless the Company receives a written notification from the Client for the termination of such representative authorisation, in such a manner as the Company may at any time determine, the Company may continue accepting instructions and/or Orders given by such representative on behalf of the Client, and the Client shall recognise such Orders as valid and binding. The written

notification by the Client for the termination of the authorisation of the representative must be received by the Company with at least two (2) Business Days' prior notice.

The Company reserves the right at its discretion and without notice to the Client, to refuse to accept instructions from any authorized person and to consider the appointment of any such authorized person as terminated. Furthermore the Company may, at any time and at its discretion, reject any existing and previously accepted power of attorney between the Client and any authorised representative, and may reverse any relevant Transactions and restore the affected Trading Accounts' Balance.

10.20 The Client can open and close a position via its Company's Trading Platform and add or modify orders by placing "Buy Limit", "Buy Stop", "Sell Limit", "Sell Stop", "Stop Loss", and/or "Take Profit" on any Financial Instrument offered by the Company, provided that these types of orders are applicable for the relevant 'Execution venue'.

10.21 Once given, instructions may only be withdrawn or amended with Company's consent. The Company can only cancel Client's instructions if the Company has not already acted upon them. If, after instructions are received, the Company reasonably believes that it is not practicable to act on them within a reasonable time, or the Company reasonably believes that it is in Client's best interest not to act on such instructions, the Company may defer acting upon those instructions until it is in Company's reasonable opinion, practicable (or in Client's best interest) to do so, or notify the Client that the Company declines to act upon such instructions.

Any type of order which is unavailable through the Electronic Trading Platform will be automatically rejected by the Company. The status of the Orders is always shown on the Electronic Trading Platform.

The Company will not be liable for any losses resulting from any delay or inaccuracy in executing Client's instructions, nor in deferring acting or refusal to act.

10.22 The Company shall not be liable for any loss, expense, cost or liability (including consequential loss) suffered or incurred by the Client as a result of instructions being given, or any other communications being made via the internet or other electronic media. The Client will be solely responsible for all orders, and for the accuracy of all information, sent via such electronic media using Client's name or personal identification number. The Company shall not be held responsible for delays or inaccuracies in the transmission of any instruction or other information or the execution of orders due to any cause whatsoever beyond the reasonable control of the Company.

10.23 The Client's orders are executed at the "BID"/"ASK" prices offered by the Company and which the Client can see in the Electronic Trading Platform. The Client places his/her order at the prices he/she sees on his/her Client terminal and the execution process is initiated. Normally the transaction is executed at the prices the Client can see on his/her Client terminal. Due to the high volatility of the markets as well as the internet connectivity between the Client terminal and the server, the prices requested by the Client and the current market price may change, during the confirmation process. In this event, the Company has the right to decline the Client's requested price and offer a new price. The Client can either accept the new price and execute the transaction or refuse the new price, thus cancelling the execution of the transaction.

10.24 Under certain trading conditions it may be impossible to execute Orders on a Financial Instrument at the declared price. In this case the Company reserves the right to execute the Order or change the opening or closing price of the transaction at a first available price. This may occur, for example, at times of rapid price movement if the price rises or falls in one trading session to such an extent that under the rules of the relevant exchange, trading is suspended or restricted. Or this may occur in the trading session start moments (opening gaps). So as a result, placing a “Stop-Loss” Order will not necessarily limit the Client’s losses to the intended amounts, because market conditions may make it impossible to execute such an Order at the stipulated price.

Considering the levels of volatility affecting both price and volume, the Company is constantly seeking to provide client orders with the best execution reasonably possible under the prevailing market conditions. Client’s orders are executed at the available Market price. However during periods such as volatile market conditions, during news announcement, on opening gaps (trading sessions starts), or on possible gaps where the underlying instrument has been suspended or restricted on a particular market, client’s orders are executed at the next available Market price upon clients’ discretion.

10.25 In case of force-majeure, hacker attacks or other illegal actions against the Electronic Trading Platform or the equipment of the Company, and also in case of a suspension of trade in the financial markets concerning Financial Instruments, the Company may suspend, freeze or close the Client’s positions and request the revision of the executed Transactions.

10.26 By entering into this agreement the Client duly acknowledges and agrees that:

The Company’s trading hours may be different from the hours that a specific Financial Instrument is tradable in any other market. The Company reserves the right to take any action, at its sole discretion, that includes but it’s not limited to execution, modification, opening and closing of any of the Clients positions as a result of the price movements outside Company’s Trading Hours.

10.27 By entering into this agreement the Client acknowledges that he/she understands and agrees that the Company is the sole counterparty and therefore when the Company executes a transaction for (or with) the Client it may be engaging in a similar trading for (or with) other clients, Company’s affiliated companies, or for own account, subject to the provisions of Applicable Regulation.

10.28 To the extent permitted by Applicable Regulation, the Client agrees that the Company will not owe the Client any duties of best execution in respect of a regulated investments services falling outside the scope of relevant regulations.

10.29 There are a number of situations where the Company will not owe the Client any duties of best execution (as more fully set out in the information regarding our Best Execution Policy). These include without limitation the following scenario. When the Client gives specific instructions to the Company and the Company executes Client’s order in accordance with those instructions, the Company will have discharged its duties to the extent of those instructions. It is noted that the specific instruction may prevent the Company from taking the steps designed and implemented in its Best Execution Policy to obtain the best possible

result for the Client. Trading rules for specific markets or market conditions may prevent the Company from following certain of the Client's instructions.

- 10.30 When executing orders on Client's behalf the Company will do this in accordance with its Best Execution Policy as amended from time to time.
- 10.31 Considering the volume of the Client's order and the current market conditions, the Company reserves the right to proceed with partial execution of the Order.
- 10.32 The Company has the right at its absolute discretion to increase or decrease the spreads of any Financial Instrument depending on the current market conditions and the characteristics of Client's order.
- 10.33 The level of Swap rates may vary in size and change depending on the market conditions and at Company's discretion.
- 10.34 The Swap rate is mainly dependent on the level of interest rates as well as the Company's fee for having an open position overnight. The Company has the discretion to change the level of the Swap rate on each Financial Instrument at any given time and the Client acknowledges that he will be informed by the Main website. The Client further acknowledges that he is responsible for reviewing the contracts specifications located on the Main Website for being updated on the level of Swap rate prior to placing any order with the Company. Furthermore, the Company reserves the right to change the level of Swap rates where there is suspicion of abuse without prior informing the Client.
- 10.35 The Company reserves the right to disable and / or enable swap free trading (if applicable) for Client's trading account and / or reverse any cumulative profits derived from the said trading at any given time and/or retrospectively charge the waived swap fee. This can occur at times where there is suspicion of swap abuse aiming at generating riskless profit where the Client abuses the Company's trading conditions/systems or where the Client's trading strategy imposes a threat to the Company's trading facility or where the company deems necessary in order to protect the smooth operation of its trading facility.
- 10.36 Any strategy that consists of a combination of full or partial hedge between a long position in a spot asset and a short position in the futures for that asset or vice versa, aiming towards a cash and carry or reverse cash and carry arbitrage is deemed as abusive and therefore any trading benefits/profits generated as a result will be reversed.
- 10.37 The one (1) standard Lot size is the measurement unit specified for each Financial Instrument traded in the Electronic Trading Platform. The Company only accepts orders that are placed in the Lot Sizes described in Fees and specifications in the Company's website. The Company may change the Contract Specifications at any time depending upon the market situation. The Client further acknowledges that it is his sole responsibility to review the Fees and specifications located on the Company's website before placing any order with the Company.
- 10.38 The Client has the right to request to change his/her account Leverage at any time during his relationship with the Company. The Client acknowledges that the Company has the right, at its absolute discretion, to modify at any time Client's trading account leverage without Clients consent, either permanently or for a limited period of time by informing the Client by written notice sent either by regular mail or email, or though the Electronic Trading Platform. At every

Friday, the Company has the discretionary right between the hours 21:00 and 24:00 server time to set the maximum leverage at 1:50 for opening a new position.

- 10.39 By entering into this agreement the Client acknowledges that he/she has read, understood and accepts the “Leverage Levels” as these are described in the Company’s website, and that the Client’s account leverage may be changed by the Company based on Client’s deposit amount or exposure on a single Financial Instrument.
- 10.40 Trading operations using additional functions/plugin made available through the Electronic Trading Platform such as “Trailing Stop” or “Expert Adviser” are executed completely and exclusively under the Client’s responsibility and at his/her own risk, as they depend directly upon the Client, and the Company bears no responsibility whatsoever. The Company reserves the right to accept or reject at its own discretion the use of additional functions/plugin of the Electronic Trading Platform and in case these additional functions/plugin affect the reliability and/or smooth operation and/or orderly of the Company’s Trading Platform to immediately terminate by way of written notice the relationship with the Client.
- 10.41 The Company has the right, at its own discretion, to start closing Clients positions at margin level less than 100% and at margin level of equal or less than 50% the Company will automatically close Client’s positions at market price.
- 10.42 If any underlying asset/security of the Financial Instrument offered by the Company becomes subject to any adjustments as a result of any of the events described below (referred to as “Corporate Events”), the Company will determine the appropriate adjustment, if any, to be made to the opening/closing price, size, value and/or quantity of the corresponding transaction, including the level or size of the corresponding order. This adjustment is made in order to (i) account for the diluting or concentrating effect necessary to preserve the economic equivalent of the rights and obligations of the parties under the transaction immediately prior to that Corporate Event, and/or (ii) replicate the effect of the Corporate Event upon someone with an interest in the relevant underlying asset/security, to be effective from the date determined by the Company.

“Corporate Events”: means any of the following events by the declaration of the issuer of the asset/security (the list is not exhaustive):

- a) A subdivision, consolidation or reclassification of shares, a share buy-back or cancellation, or a free distribution of bonus shares to existing shareholders, capitalization or share split or reverse share split or similar event;
- b) A distribution to existing holders of the underlying shares of additional shares, other share capital or securities, granting the right to payment of dividends and/or proceeds from the liquidation of the issuer equally proportionate to such payment to holders of the underlying shares, securities, rights or warrants granting the right to receive or purchase shares for less than the current market price per share;
- c) Any other event regarding shares analogous to any of the above events or otherwise having a diluting or concentrating effect on the market value of shares; or
- d) Any event analogous to any of the above events or otherwise having diluting or concentrating effect on the market value of any security/ Underlying Instrument not based on shares;
- e) Any event that is caused by a merger offer made regarding the company of the underlying asset/security;
- f) Earnings announcements

The Company bears no responsibility for notifying the Client regarding announcements of Corporate Events. The Client bears all responsibility, without limitation, to check in the Company's website for any Dividend Adjustments updates at the end of each week.

- 10.43 If any underlying asset/security of the Financial Instrument offered by the Company becomes subject to a specific risk resulting in a predicted fall in value, the Company reserves the right to restrict short selling or even to withdraw the specific Financial Instrument from the Company's trading Platform.
- 10.44 Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the Transaction (and/or the level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment by written notice sent either by regular mail or email, or through the Electronic Trading Platform as soon as is reasonably practicable.
- 10.45 In the case where the Client has any Open Positions on the ex-dividend day for any of the underlying assets/securities of the Financial Instrument, the Company has the right to close such positions at the last price of the previous trading day and open the equivalent volume of the underlying Financial Instrument at the first available price on the ex-dividend day. If a Client's account holds such positions through the ex-dividend date, the Company reserves the right to adjust the Client's Account balance by crediting or debiting the appropriate amount at any time without prior notice given by the Company. This amount shall depend on the size of the positions and the amount of dividend per stock and will appear in the account's transactions as Dividend Adjustment. In such cases, the Company may not inform the Client of the said adjustment beforehand and the Client bears the responsibility to be aware of any situations that may require the said adjustment. In the case where the company's Risk Management believes the Client is deliberately attempting to take advantage of the fact that shares in a particular Spot Index going ex-dividend, the Company reserves the right to apply a dividend adjustment. In the case of short positions, the dividend adjustment will be debited from the clients' account where dividend adjustment will be equal to Index Dividend declared x position size in lots.
- 10.46 Where the Company determines that the Client either once-off or systematically takes advantage of delayed or wrong price feeds by trading on them, the Company reserves the right (a) to adjust the price(s) and/or the spread provided to the Client, (b) to delay the price confirmation and/or re-quote the price offered, (c) to restrict Client's access to the Trading Platform and/or provide only manual quotes, (d) to retrieve any historic profits from the Client's trading account, provided that it can document that such trading profits have been obtained as a result of a price(s) abuse at any time during the relationship with the Client, (e) to immediately terminate by way of written notice the relationship with the Client.
- 10.47 Any conversion required to be effected from one currency to another for the execution of any order or for effecting any transaction by the Company in accordance with or in relation to this Agreement, may be done by the Company in such manner and at such time as it may deem appropriate at its absolute discretion. The Client acknowledges and agrees that he shall undertake all risks deriving from any such conversion and in particular, without prejudice to the generality of the above, the risk of loss which may be incurred as a result of the fluctuation in the exchange rates.

- 10.48 The Company offers, through its website, the opportunity for the Client to open a demo account. The Client is notified and understands that the execution in the demo environment where a demo account operates might differ from the environment of a live account.
- 10.49 Determination of any adjustment or amendment to the opening/closing price, size, value and/or quantity of the transaction(s) (and/or level or size of any order) shall be at the Company's sole discretion and shall be conclusive and binding upon the Client. The Company shall inform the Client of any adjustment or amendment via its internal mail as soon as is reasonably practicable.
- 10.50 Any Transactions made with us do not occur on an exchange. Rather the Transaction occurs off-exchange or over the counter ("OTC"). As a result, we enter directly into a contract with you in respect of your Transaction.
- 10.51 It is the Client's responsibility to ensure they have reviewed all Corporate Actions, Corporate Events and/or any official news releases from external parties or any other related source i.e., stock exchange, prior to making any trading decision.

11. Closing Transactions

- 11.1 Transactions may be closed at any time within Company's Quoting Hours (except where the relevant market is suspended or not available for whatever reason) unless we notify you otherwise. We may accept closure of open Transactions outside our Quoting Hours dependent upon the market but are not obliged to do so.
- 11.2 You must specifically close an open Transaction; opening an opposing Transaction will not automatically close, wholly or in part, an existing Transaction.
- 11.3 You are not required to close a Transaction prior to the Expiry Date provided that your account is not in deficit. However, in certain circumstances and in accordance with the Agreement, we will be entitled or may be required to close your Transaction prior to the Expiry Date notwithstanding that your account is not in deficit.
- 11.4 Unless market conditions dictate otherwise, all Transactions still open on their Expiry Date will be automatically settled at the relevant price as outlined in the Market Information.
- 11.5 If the Expiry Date of a Transaction is not a recognised business day of the relevant Underlying Market, then the business day immediately preceding that stated will be considered as the Expiry Date unless an alternative is specifically stated in the Market Information or we notify you otherwise.
- 11.6 Open Transactions will automatically close on their Expiry Date (as are detailed in the Market Information) and any subsequent closing of any such Transaction by you (whether or not accepted in error by us) will be void. Details of the applicable Expiry Date for each Expiry Transaction will normally be available in your Account or may be obtained from us upon your request. It is your responsibility to make yourself aware of the Expiry Date for a particular Expiry Transaction.
- 11.7 On the Expiry Date of a Transaction with a specific expiry date, the settlement price will be based on the closing Bid or Offer price of the Underlying Market plus or minus our spread on

that Transaction, depending on your Transaction (if you have a Long Transaction the settlement price will be the Bid of the equity in the Underlying Market at the Expiry Date minus the spread and if you have a Short Transaction the settlement price will be the Offer of the equity in the Underlying Market at the Expiry Date plus the spread).

- 11.8 You acknowledge that it is your responsibility to make yourself aware of the Expiry Date and of any Spread or commission that we may apply when an Expiry Transaction is Closed Out.
- 11.9 On the Expiry Date of a Transaction with a specific expiry date during a period of low liquidity in the Underlying Market, we may settle the Transaction at the price achieved by removing our hedge on the relevant Transaction during the course of the final business day of the relevant Expiry Date plus or minus our relevant spread or at the closing Bid/Offer price in the relevant Underlying Market plus or minus our relevant spread.
- 11.10 In certain Underlying Market conditions it may not be possible to close a single Transaction with sizable market consideration in full at one price. Such a Transaction may instead be closed at a price reflecting the price at which we are able to transact any relevant underlying hedge but only during the trading hours of the Underlying Market (whether or not the relevant Transaction was opened during or outside the Underlying Market trading hours).
- 11.11 We will treat all Transactions as a Buy or a Sell without reference to whether such actions open a new Transaction and/or close (or part close) an existing one. Any statement made by you with reference to any Transaction closing or opening a Transaction is not binding on us. It is your responsibility to ensure that any action made by you actually closes or opens a Transaction. We are not obliged to ensure that a statement made by you does in actuality have the stated effect (for example if you state that a Sell of the UK 100 “closes a Transaction” when it actually opens a new Transaction then the new Transaction will be deemed to have been opened).

12. Manifest Error

- 12.1 In order for the Company to determine whether an error is a Manifest Error, the Company will act in a reasonable way and will take into consideration any relevant market practice or information such as the state of the relevant underlying market at the time of the suspected Manifest Error, or any linked error, or lack of clarity of any information source or pronouncement under which the Company base its quoted prices.
- 12.2 We will, when making a determination as to whether a situation amounts to a Manifest Error, act fairly towards you but the fact that you may have entered into, or refrained from entering into, a corresponding financial commitment, contract or Transaction in reliance on an Order placed with us (or that you have suffered or may suffer any loss) will not be taken into account by us in determining whether there has been a Manifest Error.
- 12.3 The Company reserves the right to separately void either from the beginning or to modify retroactively the conditions of any transaction that contained or was based on any error that the Company has reasonable grounds to believe to be obvious. If the Company, at its absolute discretion decides to proceed in modifications of any transaction with Manifest Error, the said modifications will reflect the conditions that the Company reasonably believes would have been fair at the time the Transaction was entered into.

- 12.4 In respect of any Manifest Error, the Company may (but will not be obliged to):
- (a) Amend the details of each affected transaction to reflect what the Company may reasonably determine to be the correct or fair terms of such Transaction absent such manifest error; or
 - (b) Declare any or all affected Transactions void, in which case all such Transactions will be deemed not to have been entered into.
- 12.5 The Company will not be liable to the Client for any loss (including any loss of profits, income or opportunity) the Client or any other person may suffer or incur as a result of or in connection with any Manifest Error (including any Manifest Error by the Company) or the Company's decision to maintain, amend or declare void any affected Transaction, except to the extent that such Manifest Error resulted from the Company's own willful default or fraud, as determined by a competent court in a final, non-appealable judgment
- 12.6 We will not be liable to you for any loss, cost, claim, demand or expense that you suffer (including any incidental, indirect or consequential loss) you or any other person may suffer or incur as a result of or in connection with any Manifest Error (including any Manifest Error by us) or our decision to maintain, amend or declare void any affected Transaction, except to the extent that such Manifest Error resulted from our own willful default or fraud, as determined by a competent court in a final, non-appealable judgment.
- 12.7 Any financial commitment that the Client entered with the Company that was voided from the beginning or amended retroactively as provided herein, will not be taken into consideration in the decision if it was or not a Manifest Error.
- 12.8 Unless there is proof of fraud, wilful misconduct or gross negligence from the Company's end, the Company will not be responsible or liable to the Client for any losses, costs, claims, demands or expenses of any sort following or related to a Manifest Error. However if a Manifest Error proved to be occurred and the Company make use of its right to amend retroactively the conditions of the affected transaction and the Client already received money from the Company in connection to that specific transaction it is hereby agreed that the Client will be under obligation to return the amount received back to the Company immediately. On the other hand, if in accordance with the results of the retroactive application of the fair conditions as stated in this section, the Company owes money to the Client that money will be send to the Client's account in a timely manner. Thus if as a result of the retroactive application of such fair conditions, you shall owe the Company any monies, such money should be transferred by you to the Company in a timely manner.
- 12.9 In the event of Manifest Error the Company will notify the Client within 5 Calendar Days from the date the Manifest Error has been detected and it will inform you with the way the Company will proceed to rectify it.
- 12.10 It is hereby agreed by the Client that if a Manifest Error is detected the Company will take the necessary measures to remedy the consequences of the said Manifest Error which may include the freezing of Client's positions, the closing of any Client's positions or the suspension of the same.

13. Prohibited Trading Techniques

- 14.1 Customers must be aware that Forex and CFDs transactions carry a high degree of risk. The amount of initial margin may be small relative to the value of the foreign currency so that transactions are 'leveraged' or 'geared'. certain market conditions including, but not limited to, when the trading desk is closed, around fundamental announcements, as a result of changes in credit markets, at times of extreme market volatility and/or when the Company deems that such exposure is risky and that it is not possible for the Company to mitigate its risks. In such circumstances, the Customer agrees to indemnify the Company for any and all losses that may occur due the widening of spreads and the adjustment of leverage.

18.6 The Company shall issue to the Client, with respect to each of his transactions, a confirmation of the transaction. Such confirmation shall constitute binding evidence for the Client as to the execution and the details of the transaction but shall not constitute evidence of the fulfilment of the obligations of the Client towards the Company.

18.7 The Client is responsible for the due performance of every transaction that the Company enters with the Client or for the Client, whether the Client is dealing as principal or as agent for another person. The Company will advise the Client of the settlement instructions and agents for each of the relevant markets.

20.2 It is noted that the Company's prices in relation to CFD trading are set by the Company and may be different from prices reported elsewhere. The Company's trading prices are the ones at which the Company is willing to sell CFDs to its Clients at the point of sale. As such, they may not directly correspond to real time market levels at the point in time at which the sale of CFD occurs.

In case of non-fulfilment of these obligations, the Company shall be entitled not to execute the relevant order, in whole or in part, or to cancel its execution. If the Company executes the Client's order, despite the fact that the Client has not fulfilled his abovementioned obligations, the Client shall be obliged to deposit immediately the purchase price of the Financial Instruments (on purchase) or to deliver the Financial Instruments (on sale) and to deposit Company's fee as well as the relevant duties and/or commissions and/or other expenses, otherwise the Client shall be considered instantly in arrear without any further notice and shall be liable for any loss caused to the Company from this delay. The Company shall therefore be entitled to refuse to deliver any of them to the Client or to any other person to the order of the Client until the Client fulfils his obligations towards the Company. For this purpose, all other separate transaction relationships between the Client and the Company shall be deemed to derive from and be governed by these terms. The Company shall not be liable for any losses caused to the Client or to any third party by the exercise of the right of lien or by any other lawful measures which may be taken by it, for the settlement of its claims against the Client.

21.3 The Parties agree that in case the Company effects a transaction which is not covered by the balance of the Client Accounts, the Client shall immediately pay the difference between the said balance and the cost of the transaction. Among other rights that the Company has in the way of handling these accounts is the transferring of funds between accounts to cover possible negative balances, of any of these accounts, without this affecting in any way the other right of the Company.

This Agreement shall become effective upon the first funding of the Client's Account, provided the Company has sent the Client a written confirmation for his acceptance. - 22.11 In general, we only allow you to open Deposit Accounts (where sufficient Trading Resources are needed to facilitate new Transactions).

23. Safeguarding of Client's funds

23.1 When holding Client funds on Client's behalf the Company shall take every possible measure to safeguard the funds against the use of client funds for its own account.

23.2 Client's funds will be held by the bank and/or any other institution permitted under Applicable Regulation the Company may select (which may include affiliated companies), in the name of the Client and/or the name of the Company on behalf of the Client in a separate bank account specially designated as "Client account". This means that your funds will be segregated from our own money and cannot be used in the course of our business.

23.3 The Company exercises all due measures, care and diligence in the selection, appointment and periodic review of the banks where the Client's funds are held.

23.4 The Company is maintaining risk assessments on all regulated third parties to whom the

Company is passing money received from Clients. The money passed from the Company to those third parties are held in an omnibus account and it might not be possible to separate it from the Company's money or the third party's money (subject to the third party regulatory provisions). In the unlikely situation of bankruptcy of the third party the Company might have an unsecured claim against that party on behalf of the Client and therefore the Client might be exposed to the risk that the funds received from the Company by the Third Party are insufficient to cover the claims of the Client in respect of the relevant account.

- 23.5 The Company has no responsibility for the funds not deposited directly into the Company's Bank Accounts for losses directly or as a result of delays or failures to deposit funds through affiliated or third parties.
- 23.6 Since the Margin is required in order to activate the Client's account and keep his/her positions with the Company open, the Client hereby agrees that the Company has the right to transfer the ownership of this margin from the Client to the Company in order to be maintained by the Company as security and therefore be returned by the Company to the Client upon closing of the transaction. In this case, the Margin will be considered as a debt due by the Company to the Client and not as Client Money, therefore it could be used by the Company subject to the repayment obligation.
- 23.7 The Company will maintain separate records in the accounting system of its own funds/assets and funds/assets kept on behalf of Clients so as at any time and without delay to distinguish funds held for one Client from funds held for any other Client, and from its own funds/assets.
- 23.8 Where the Company holds cash on Client's behalf as Client Assets with a bank or other financial institution or other third party with whom such money can be held ("Banks"), the Company will treat such money in accordance with applicable rules applying to such Client Assets.
- 23.9 Unless instructed otherwise, the Company may hold cash on Client's behalf as Client Assets in any Bank in or outside the jurisdiction in which the Company provides services to the Client. In case the Company holds cash on Client's behalf as Client Assets in a Bank outside the jurisdiction the Company provides services to the Client, the legal and regulatory regime applying to any such Bank may be different from that in the jurisdiction in which the Company provides services to the Client, and, if any such Bank becomes insolvent or otherwise fails and is therefore unable to pay all of its creditors, your Client Assets may be treated differently than if it were held by a bank in the jurisdiction the Company provides services to the Client.
- 23.10 Notwithstanding any other provisions in this Agreement, the Company will not be liable for any loss or other liabilities the Client may suffer or incur as a result of the insolvency, acts or omissions of any Bank holding cash under this section or any similar events.
- 23.11 The Company has a right to hold the Client's monetary funds and financial instruments with credit and financial institutions outside Mauritius.

- 23.12 If the Company holds the Client's monetary funds and financial instruments outside Mauritius they will be subject to the laws of that state and the Client's rights in relation to those monetary funds and financial instruments may differ accordingly.
- 23.13 The Company may, at its own discretion, transfer Client's funds from one Client Account to another in a different jurisdiction without such transfer affecting the protection afforded to us under this section.

24. Safeguarding of Client's financial instruments

- 24.1 Where the Company holds financial instruments on Client's behalf with a bank or other financial institution or other third party with whom such financial instruments can be held ("third party"), the Company will treat such financial instruments in accordance with applicable rules applying to such Client Assets.
- 24.2 Unless instructed otherwise, the Company may hold financial instruments on Client's behalf as Client Assets in any third party in or outside the jurisdiction in which the Company provides services to the Client. In case the Company holds financial instruments on Client's behalf as Client Assets in a third party outside the jurisdiction the Company provides services to the Client, the legal and regulatory regime applying to any such third party may be different from that in the jurisdiction in which the Company provides services to the Client, and, if any such third party becomes insolvent or otherwise fails and is therefore unable to pay all of its creditors, your Client Assets may be treated differently than if it were held by a third party in the jurisdiction the Company provides services to the Client.
- 24.3 Notwithstanding any other provisions in this Agreement, the Company will not be liable for any loss or other liabilities the Client may suffer or incur as a result of the insolvency, acts or omissions of any third party holding financial instruments under this section or any similar events.
- 24.4 The Company has a right to hold Client's financial instruments with credit and financial institutions outside Mauritius.
- 24.5 If the Company holds the Client's financial instruments outside Mauritius they will be subject to the laws of that state and the Client's rights in relation to those financial instruments may differ accordingly.
- 24.6 The financial instruments of the client or potential client may, if permitted by national law, be held in an omnibus account by a third party. The Company hereby provides a prominent warning of the resulting risks.
- 24.7 The Company hereby notifies the client and provides a prominent warning of the resulting risks where it is not possible under national law for the client financial instruments held with a third party to be separately identifiable from the proprietary financial instruments of that third party or of the Company.
- 24.8 The Company hereby informs the clients about the existence of security interest or lien which the Company has over the client's financial instruments or funds, and the right of set-off it holds in relation to those instruments or funds. Where applicable, the Company is informing the client of the fact that a depository may have a security interest or lien over, or right of

set-off in relation to those instruments or funds.

- 24.9 The Company before entering into securities financing transactions in relation to financial instruments held by it on behalf of a client, or before otherwise using such financial instruments for its own account or the account of another client will in good time and before the use of those instruments provide the client, in a durable medium, with clear, full and accurate information on the obligations and responsibilities of the Company with respect to the use of those financial instruments, including the terms for their restitution, and on the risks involved.

25. Transfer of funds

- 25.1 The Company shall inform the Client of the name, address and account number of the Company's "Client account" for transferring funds. It is Clients responsibility to read and understand the additional information provided on each payment method provided by the Company.
- 25.2 The Client shall clearly specify his/her name and all required information, in accordance with international regulations related to the fight against money laundering and terrorism financing, on the payment document. It is the Company's policy not to accept payments from third parties to be credited to the Client's Account.
- 25.3 You can fund your account at any time online via our website. You can use a vast array of methods which are constantly expanding, details of which can be found either on online or through your contact person with the Company. In addition to this, you can make a bank transfer directly from your bank to ours, details of which can be found on our website or through your contact person with the Company.
- 25.4 You can request a payment from your account at any time. These requests are processed daily by our accounts department. All monies returned will be paid back to the source from where they originated. In the event that we are unable to do this because this would breach deposit limits applied by that financial institution, then we will have to return the funds directly to your bank account. This will be done in line with our strict anti money laundering procedures, and may include you having to provide additional identification and proof of the bank account belonging to you.
- 25.5 Any funds to be sent to the Bank Clients' Account should only be sent by the Client himself and not by any third party.
- 25.6 Any funds transferred by the Client to the Company's "Client account" will be deposited in the Client's Account at the "value date" of the received payment and net of any deduction/charges by the transferring bank. The Company must be satisfied that the sender is the Client before making any amount available to the Client's Trading Account, and the Company may, at its discretion, refund/send back the net amount received to the remitter by the same method as received or as otherwise determined by the Company. In case the Client's account reaches a stop-out during the processing period of the deposit, the Company bears no responsibility for any losses suffered.

- 25.7 The Client is solely and fully responsible for payment details that are given to the Company and the Company accepts no responsibility for the Client's funds, if any payment details are proved to be wrong or lacking. The Company shall not be liable for any funds not deposited directly into the Company's bank accounts.
- 25.8 The Company has the right to refuse a Client's transferred funds in any of the following cases (the list is not exhaustive):
- i. If the funds are transferred by a third party;
 - ii. If the Company has reasonable grounds for suspecting that the person who transferred the funds was not a duly authorized person;
 - iii. If the transfer violates any applicable legislation.

In any of the above cases the Company will send back the received funds to the remitter by the same method as they were received and the Client will suffer the relevant Client's Bank Account provider charges.

- 25.9 By signing this Agreement the Client gives his/her consent and authorizes the Company to make deposits and withdrawals from the "Client account" on the Client's behalf, including but not limited to, for settlement of transactions performed by or on behalf of the Client, for payment of all amounts due by or on behalf of the Client to the Company or any other person.
- 25.10 The Client has the right to withdraw the funds which are not used for margin covering, free from any obligations (i.e. Free Margin) from the Client's account without closing the said account.
- 25.11 Unless the Parties otherwise agree in writing, any amount payable by the Company to the Client, shall be transferred directly to the Client's personal account. Fund transfer requests are processed by the Company within the time period specified on the Company's website and the time needed for crediting into the Client's personal account will depend on the Client's Bank Account provider. The Balance shall be reduced by the transferring amount on the day the transfer request is received. The Company may either decline a withdrawal request if the request is not in accordance with the provisions of this section of the Agreement, or delay the processing of the transfer request if the Company is not satisfied on the documentation made available by and for the Client and until such time as the Company shall be so satisfied.
- 25.12 Client's withdrawals should be made using the same method used by the Client to fund his Client Account and to the same remitter. The Company reserves the right to refuse a withdrawal request from the Client with a specific payment method and suggest another payment method where the Client needs to proceed with a new withdrawal request, or request further documentation while processing the withdrawal request. If the Company is not satisfied with any documentation provided by or on behalf of the Client, the Company may, at its discretion, reverse the withdrawal transaction and deposit the amount back into the Client's Account net of any charges/fees charged by the Client's Bank account providers. Where applicable, the Company reserves the right to send Client's funds only in the currency as these funds were deposited.

If we credit a payment to your Account but subsequently discover that the credit was made in error, we reserve the right to reverse any such credit and/or cancel any Trades which could not have been made or close any Open Position which could not have been established but for that

credit.

25.13 During the continuance of transactions with the Company, and until complete settlement of all amounts due at any time by the Client to the Company, the Company shall, without prejudice to any of the Company's rights under the law or this Agreement, have a general preferential lien upon all and/or any of the Client's monies, negotiable instruments and other assets of whatever nature at any time coming into its possessions, custody or power, in respect of and as security for any monies and liabilities which now are, or at any time hereafter may be due or owing by the Client to the Company in any manner whatever whether alone or jointly with any other person(s) and under whatever name, style or firm and whether such liabilities are actual or contingent, direct or collateral. The Company may, at its discretion, from time to time and without the Client's authorization or prior notice, set-off any amounts held on behalf and/or to the credit of the Client against any of the Client's obligations towards the Company and/or merge, consolidate or combine any accounts of the Client with the Company. Unless otherwise agreed in writing by the Company and the Client, this Agreement shall not give rise to rights or credit facilities.

We may apply any credit balance to which we are at any time beneficially entitled on any account which you have with us in (or towards) satisfaction of any sum then due and payable (but unpaid) by you to us. If such balances are in different currencies, we may convert either balance at a rate of exchange reasonably determined by us for the purpose of the set-off. We will not be liable to you for any exchange rate loss suffered by you as a result of such currency conversion.

25.14 In the event of an account being left dormant or un-utilised for a period of 5 years the Company may start proceedings in attempt to contact the registered owner of the account. In the event of the account holders death then an attempt will be made to contact their estate or heirs. All reasonable steps will be taken, where possible, to locate the legal title holder of the account, but if after a further period of 12 months no contact has been made then the Company may close the account and will no longer consider the funds held on that account as client funds. We will treat these funds in accordance with the relevant laws.

25.15 The Company, in full accordance with global anti money laundering regulations, do not accept cash deposits.

25.16 In the event that any amount received in the Bank Clients' Account is reversed by the Bank Clients' Account provider at any time and for any reason, the Company will immediately reverse the affected deposit from the Client's Trading Account and reserves the right to reverse any other type of Transaction effected after the date of the affected deposit. These actions may result in a negative Balance in all or any of the Client's Trading Account(s) and the Client hereby shall accept such a negative Balance. The Company reserves the right to merge, consolidate or combine any accounts of the Client with the Company as per paragraph 25.13.

25.17 The Client warrants and acknowledges that he/she has read understood and accepted the additional information, including costs and fees, regarding deposits and withdrawals provided for each payment method which are available on the Company's website. The Company reserves the right to amend at its discretion all such costs and fees. Information on such amendments will be made available on the Company's Website which the Client must regularly review during the term of this Agreement.

- 25.18 The Client acknowledges that in case a Client's Bank Account is freezed for any given period and for any given reason the Company assumes no responsibility and Client's funds will also be freezed.
- 25.19 We may retain funds that are required to cover margin requirements, net unrealised losses, uncleared funds (i.e. cheques or credit card payments), realised losses and any other amount due under the Agreement.
- 25.20 Without prejudice to any part of the Agreement we may require the settlement of all open Transactions at any time and with immediate effect. Such settlement will be made at the prevailing Company Quote for each Transaction at the time of settlement or at the first such time that such a settlement may be practicably made. The settlement amount in respect of each open Transaction will be calculated by us as the difference between the opening value of each Transaction and its value on the settlement price.
- 25.21 At any time you may request all unutilised funds on your account to be repaid to you. If from the time of your request to the time that we process the request the value of any open positions has moved such that you no longer have the amount requested available then this will not be possible. We also reserve the right to withhold any payment if we feel that it may be required to meet future short-term payments.
- 25.22 By entering into this agreement the Client gives his/her consent and authorizes the Company, where applicable, to transfer/hold Client's funds to another jurisdiction (EU Member State or third country) authorized broker in which the Client's funds will be located on a segregated Client's bank account. The Client also consents that his/her funds, where applicable, can be deposited in an omnibus account.
- 25.23 By entering into this agreement the Client waives any and all rights to receive any interest earned in moneys held in the Bank Clients' Account and consents that the Company shall benefit from any such interest earned to cover the registration, general expenses, charges, fees and interest related to the administration and maintenance of the Banks Clients' Account. These expenses will not be passed to the Client.

26. Negative Balance Protection

- 26.1 The Negative Balance Protection limits the maximum losses that a retail client could have, and it is designed as a backstop for when margin close-out does not work effectively as a result of a very sudden price movement. The Client understands that the Negative Balance Protection is applied on each Client and not on a per account basis, meaning the Company shall have the right to pay off without future authorization the negative balance of the account by transferring funds from any other account of the Client. The Client understands that there can be no residual loss or obligation to provide additional funds beyond those in the Client's accounts. The Negative Balance Protection is expected to be needed only in rare situations, under extreme market conditions.
- 26.2 The Client understands that any indication or suspicion, in Company's sole discretion, of any form of abuse of the Company's Negative Balance, constitutes a violation of this agreement and in such case the Company reserves the right, among others, to transfer any or all the funds the Client may have in a different account in order to set-off the obligations that have occurred to the other account used for any abusive acts.

27. Company's Fees, costs and charges

- 27.1 When you enter into a Transaction with us you will be charged a mark-up or mark-down (the difference between the price at which we take a principal position and the Transaction execution price with you). We may agree a fixed mark-up or mark-down (commission). The mark-up/mark-down or commission that will be charged depends on the circumstances of each Transaction. You can request details of the relevant mark-up/mark-down or commissions by contacting us.
- 27.2 The Company is entitled to receive fees from the Client for any services provided under this Agreement as well as compensation for any expenses it may incur for purposes of this Agreement and the execution of the said Services. The Company is entitled to modify, from time to time, the size, amounts and percentage rates of its fees and expenses for which the Client will be informed accordingly. The following expenses (the list is not exhaustive), if applicable, incurred by the Company in the course of the proper fulfillment of its obligations under this Agreement and the Client agrees to reimburse the Company:
- (a) all expenses associated with conclusion, clearing and settlement of transactions and other expenses that may arise in connection with the transactions, including but not limited to, the payments of the registration fees, transfer agents fees, exchange fees, dues and other payments in favor of exchange through which a transaction has been made, bank fees, transaction fees;
 - (b) currency conversion fees, when the Client's order on securities purchase and/or funds transfer should be effected in currency different from the currency of monetary funds included in Client's account;
 - (c) the Company's expenses on payment of custodians' services, holders of registrars of issuers' shareholders registers;
 - (d) bank transfers fees.
- 27.3 You will be provided with information about all costs and charges in connection with the investment service and the financial instrument and the respective costs, commissions, swaps, fees and charges, foreign conversion rates, execution venues and if requested also an itemized breakdown shall be provided. This information (all costs and associated charges) shall be provided in the Company's website and/or platform.
- 27.4 The Client agrees that the Company is entitled to change Client's commissions and fees unilaterally without any consultation or prior consent from the Client.
- 27.5 The Client shall pay the Company any amount which he/she owes the Company when due in freely transferable, cleared and available same day funds, in the currency and to the accounts which the Company specifies, and without making any set-off, counterclaim, deduction or withholding, unless the Client is required to do so by law.

- 27.6 The Company may deduct its charges from any funds which it holds on Client's behalf. For this purpose, the Company will be entitled to combine or make transfers between any of the Client's accounts. The Company has the right to close any open positions of the Client in order to settle any obligations owned by the Client to the Company.
- 27.7 The Company will charge the Client interest on any amounts due from the Client to the Company which are not paid when due, at such rate as is reasonably determined by the Company as representing the cost of funding such overdue amount. Interest will accrue on a daily basis. Furthermore, in case the Client fails to make the required deposit within the given deadline the Company may also proceed with the sale of Financial Instruments from Client's trading account(s) without further notice to the Client unless otherwise agreed upon by the Company and the Client. The Company will then notify the Client of the effected sale orally, via email or by sending a relevant notification via Company's Trading Platform.
- 27.8 The Company may deduct or withhold all forms of tax from any payment if obliged to do so under Applicable Regulations. If the Client is required by law to make any deduction or withholding in respect of any payment, the Client agrees to pay such amount to the Company as will result in Company receiving an amount equal to the full amount which would have been received had no deduction or withholding been required. The Company may debit amounts due from any of Client's accounts.
- 27.9 The Company is not responsible for paying Client's tax obligations in relation to possible income tax or similar taxes imposed on him/her by his/her jurisdiction on profits and/or for trading in Financial Instruments.
- 27.10 Any changes to tax laws which result in future imposition of stamp duty, capital gains tax or other tax, which may from time to time be levied on Transactions will be debited to your account.
- 27.11 You may be liable for other charges and taxes that are not imposed by us. You are solely responsible for the timely payment of such charges and taxes. You should seek independent advice if you are in any doubt as to what further charges or taxes may apply to you as a result of you entering into the Agreement.
- 27.12 You agree that we may share commission and charges with our Associated Companies, Trading Partners or other third parties, and receive or pay remuneration from or to the same in respect of Transactions entered into by you with us. Such commissions and charges will only be paid where we are satisfied that such payments do not impair our requirement to act in your best interests.

Further information of any such remuneration or sharing arrangement will not be set out on the relevant Trade Confirmations. The Company might upon reasonable request, to the extent possible and at its absolute discretion, to disclose to the Client the amount of any such commission, mark-up, mark-down or any other remuneration paid by the Company to any Associate, Business Introducer or other third party.

- 27.13 If you were introduced to us by a Trading Partner or other third party, a portion of the revenues generated by your Transactions or of the charges paid by you to us may be given to such Trading Partner or third party and this may increase the overall cost of services to you. Furthermore, the amounts payable to such Trading Partner or third party may be based on

the volumes of Transactions placed by you, so the Trading Partner or third party may have an incentive to encourage you to place Transactions in order to increase such amounts. By trading with us following such an introduction, you acknowledge and accept such potential conflict of interest and waive any objections you may have in respect of it.

- 27.14 We may at any time deduct, without notice or recourse to you, any monies deposited in or credited to your account in error by us or on our behalf.
- 27.15 You may not assign any part of your profits or losses to a third party. Furthermore, a third party may not place, unless specifically provided in other clauses of this agreement, any funds in your account or withdraw funds from your account. All withdrawals from your account must be payable directly to you.

- 27.17 Commissions may be charged either in the form of a percentage of the overall value of the trade or as fixed amount. Therefore the Client needs to ensure that he/she understands the amount that the percentage amounts to.
- 27.18 In the case of financing fees, the value of opened positions in some types of Financial Instruments is increased or reduced by a daily financing fee “swap” throughout the life of the contract. Financing fees are based on prevailing market interest rates, which may vary over time.
- 27.19 Where monies have been deposited by bank transfer we may require sight of the original bank statement showing the transfer before any refund is made to that bank account.
- 27.20 Where bank accounts have been closed we may require a letter from the originating bank stating that the account has been closed and there are no funds owing to the bank. Before we will refund to a new bank account we may require sight of the original deposit transfer statement from the closed account and sight of an original new bank account statement.
- 27.21 If our records show a discrepancy between card details and our account details as supplied by you, we may require sight of original bank statements, or any other relevant evidence, to confirm your status before processing a refund.
- 27.22 By entering into this Agreement the Client dully acknowledges that he/she has read, understood and accepted the information under the title “Fees and specifications” as these are uploaded on the Company’s website, in which all related spreads, commission, costs and fees are

explained. The Company reserves the right to amend at its discretion all such spreads, commission, costs and fees, and information on such amendments will be made available on the Company's Website. It is the Client's responsibility to visit the Company's website and review the "Fees and specifications" during the time he is dealing with the Company as well as prior of placing any orders to the Company.

- 27.23 For ex-ante and ex-post disclosure of information on costs and charges to clients, the Company shall aggregate the following:
- a) all costs and associated charges charged by the Company or other parties where the client has been directed to such other parties, for the investment services(s) and/or ancillary services provided to the client; and
 - b) all costs and associated charges associated with the manufacturing and managing of the financial instruments.

For the purposes of point (a), third party payments received by the Company in connection with the investment service provided to a client shall be itemised separately and the aggregated costs and charges shall be totalled and expressed both as a cash amount and as a percentage.

28. Inducements

- 28.1 The Company, further to the fees and charges paid or provided to or by the Client or other person on behalf of the Client, as stated in section 27 of this Agreement, may pay and/or receive fees/commission to/from third-parties, provided that these benefits are designed to enhance the quality of the offered service to the Client and not impair compliance with the Company's duty to act in the best interests of the Client.
- 28.2 The Company may pay fee/commission to Introducing Brokers, referring agents, or other third parties based on a written agreement. This fee/commission is related to the frequency/volume of transactions performed by the referred Client through the Company. The Company has the obligation and undertakes to disclose to the Client, upon his request, further details regarding the amount of fees/commission or any other remuneration paid by the Company to Introducing Brokers, referring agents, or other third parties.
- 28.3 The Company may also receive fees/commission as well as other remuneration from third parties based on a written agreement. - 29.8 If the Introducing Broker or Service Provider undertakes any deductions from your Account according to any agreement between you and the Introducing Broker or Service Provider, we have no responsibility as to the existence, or validity of such an agreement.

29.9 Referral registrations for clients sharing the same address are restricted by the company. This implies that if an Introducing Broker (IB) and a Trader are both registered using the same address, the Trader cannot engage in trading to earn a fee/commission which is related to the frequency/volume of transactions performed through the Company, directly for the associated IB while being under the IB's registration. In such situations, the company retains the sole authority to nullify trading outcomes, revoke the accumulated fee/commission, sever the connection between the Trader and the IB, and/or initiate the closure of the accounts.

32. Conflicts of interest

- 32.1 The Company has arrangements in place to manage conflicts of interest between the Company and its Clients and between Company's different Clients and between its employees and any associated third parties or affiliates. The Company operates in accordance with a conflicts of interest policy it has put in place for this purpose under which the Company has identified those situations in which there may be a conflict of interest. The Company will make all reasonable efforts to avoid conflicts of interest and when they cannot be avoided the Company shall ensure that Clients are treated fairly and at the highest level of integrity and that their interests are protected at all times.
- 32.2 By accepting this Agreement the Client agrees that the Company may transact business where there may be a conflict of interest without informing the Client of that possibility.
- 32.3 By accepting this Agreement the Client acknowledges and accepts that the Company may acts as market maker and in this context there may be inherent conflicts of interest.
- 32.4 The relationship between you and us is as described in this Client Agreement. Neither that relationship, nor the services we provide nor any other matter, will give rise to any fiduciary or equitable duties on our part or on the part of any of our Affiliates. As a result, we or any of our Affiliates involved in doing business with or for you may act as both Market marker and broker, principal and agent and we or any of our Affiliates may do business with other clients and other investors whether for our own or such Affiliate's own account.
- 32.5 You accept that we and our Affiliates may either:
- a) Have interests which conflict with your interests; or

- b) Owe duties which conflict with duties which would otherwise be owed to you; and
- c) In either case, you consent to our acting in manner which we consider appropriate in such cases subject to Applicable Regulations.

32.6 We are not under any obligation to account to you for any profit, commission or remuneration made or received from or by reason of trades or circumstances in which we or our Associated Companies have a material interest or where in particular circumstances a conflict of interest may exist.

32.7 In order to prevent or manage our conflicts of interest, we have thus established several organisational and administration arrangements, which include, amongst others, the following measures:

- *Separate supervision and segregation of departments / functions / entities*: in order to prevent and/or control the simultaneous or sequential involvement of a person in separate services or activities, where such involvement may lead to situations of conflicts of interest or may impair the proper management of conflicts.
- *Option to refuse provision of services*: where services are already provided to a client and it is obvious that, by the provision of services to another new client, a conflict of interest may arise, which cannot be dealt with effectively, we may refuse to provide services to the second client.
- *Management of confidential and other information*: a system of 'Chinese Walls' is applied, in order to prevent the transfer of confidential information between departments/entities of the Group. Apart from the physical segregation of different departments/entities, this system also includes the segregation of data and information technology systems of each department/entity so that the persons engaged in each department do not have a direct physical access to records and information concerning the subject matter of another department/entity and which are not considered necessary for the execution of some specific work. As a consequence, employees have access only to data and information deemed necessary for the fulfilment of their duties.
- *Remuneration (including non-financial remuneration, such as benefits in kind and career progression)*: we take measures to ensure that we do not remunerate or assess the performance of our staff in a way that conflicts with our duty to act in the best interests of our clients. Remunerating or assessing the performance of staff in a way that conflicts with the clients' best interest rule is prohibited.
- *Inducements*: under certain circumstances, we prohibit the payment and/or acceptance and retaining of fees, commissions and any monetary or non-monetary benefits to or from persons other than our clients (e.g. advisory firms, issuers, distributors and other third parties), unless certain criteria are met as per our inducements policy. This prohibition is intended to ensure that such fees, commissions and benefits are not inducements and, as such, do not introduce conflicts with clients' interests by influencing the behaviour of the staff.
